

February 13, 2017

Dear valued customer,

We appreciate your confidence in using Diamond Line Delivery System's for your transportation needs. We will continue to strive to earn your business by providing quality service to you and your customers.

The freight industry continues to face rising costs. Health care costs continue to rise; environmental regulations, engine requirements, TSA and FDA security, and advancement in technology all affect our operating costs. For these reasons, Diamond Line Delivery, will adjust our rates and charges effective April 1, 2017.

Rates and charges will increase by 4.9%. Minimum charges will increase by \$2.00 on direct points and \$4.00 on indirect points.

We value our relationship with you and look forward to serving you and your customers in the future.

Diamond Line Delivery Systems, Inc.
An Employee Owned Company
